

# Roskilde Technical VET College

Strategy for Internationalization

**JOIN US!**

Roskilde Tekniske Skole

....or as I like to call it....

Roskilde Technical VET College

# My jobfunctions .....

- Everything that has to do with anything outside the borders

# Goal and strategy

- According to the EUD legislation the institution must:
  - ” promote students' international competences according to employment and further education”.
- Students must be taught: “Knowledge of international conditions, and knowledge as basis for work and education abroad”.

# Goal and strategy

- With the legislation in mind, we must work with internationalization as an integrated and visible part of the students' everyday lives through e.g. an international study environment, teaching, exchange and networking.

# Goal

- The goal of internationalization at RTS is to increase acceptance and understanding of international conditions and aspects, in order to strengthen one's own competencies in the globalized world..

# Goal

- Internationalization must be an integral and visible part of the everyday lives of both students and staff. Internationalization must be a basic condition and ensure that everyone associated with RTS has a broader worldview and a natural approach to international affairs.

# Goal

- The goal is for all departments to be associated with at least one international professional project or network.
- The work of sending students through the Erasmus and NordPlus program as well as the PIU scheme must be strengthened

# Goal

- International focus must help to profile us, to make the educations more attractive to young people and to contribute to development of talent.

# Goal

- We want to create a study environment that inspires vision, and we want to make opportunities for the students visible. Teachers must have continuously developed and strengthened their international competencies so that they can help to support students' views.

# Strategy

- The goal must be achieved by:
  - The departments are affiliated with an international, professional project or network.
  - All students are offered during their education participation in an international project or network
  - Students must - to the extent possible - be involved in professional competitions Skill's, WorldSkill's, Agrolympics etc.
  - The opportunity for PIU must be marketed and systematically passed on to all students, both in the basic course and the main course.

# Strategy

- The goal must be achieved by:
  - Students and teachers must be motivated to apply for mobility stays, continuing education or PIU stays.
  - The school must make it easy for students to find and get the concrete help they may need
  - Interested teachers and students that have been abroad must be activated in relation to the information work on the possibilities of being part of an international study environment.
  - At VET, employers must be informed about the possibilities for posting within the PIU scheme.

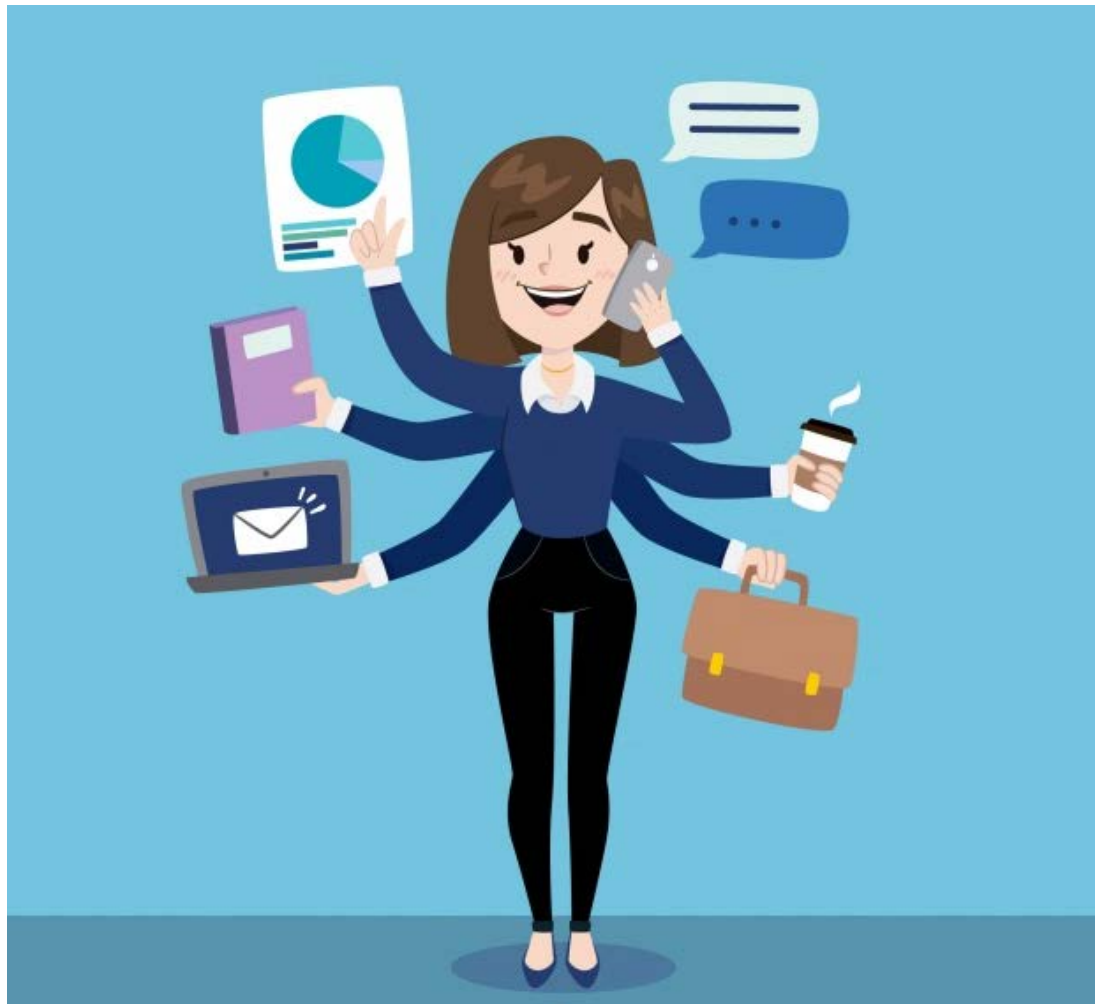

# Strategy

- The goal must be achieved by:
  - The school's international coordinator participates in relevant conferences and meetings, including EfVET with the goal of creating and maintaining networks and partners.
  - Each department prepares local goals and strategies, which are continuously discussed with the international coordinator.
  - The coordinator convenes meetings at the individual departments to ensure the preparation of specific goals and strategies.

# But why.....

# But how.....

# My work.....

- Erasmus+ students on mobilities....

# Erasmus+

- app 120 students per – mobility/Apprenticeship
- Farmers
  - Czech Republic, Austria, Spain, Holland, Ireland, Iceland
- Animal Keepers
  - France, The Netherlands, Spain, Belgium, Sweden, Germany etc
- Gardeners
  - Germany, Ireland, Germany, Portugal, Spain, Tyskland, Ireland
- Landscape Gardeners
  - Ireland, The Netherlands, Norway, Italy, Greece
- IT/Data Supporters
  - Spain, Norway

# My job.....

- JobShadowing....

# Teachers

- Travelling with students
  - Spain
  - Austria
  - Ireland
  - Czech Republic
  - Italy
  - France

# My work.....

- Outbound "job-shadowing" ....

# My work.....

- Inbound job-shadowing....
  - Norway
  - Portugal
  - France
  - Germany
  - Finland

# My work.....

- Students at school abroad....

# Students at school abroad

- Cabinetmakers in Germany
  - 2 weeks at school. Common project between students from DK and GER
- It Supporters in Spain
  - 2 weeks at school

# My work.....

- Inbound students....

# Inbound students

- France:
  - 12 electricians at a KNX certification course
  - 4 Equine Management in work experience
  - 2 industrial technicians in work experience
- Sweden:
  - 21 students Enclosure design (Animal Keeper)
  - 3 students in work experience at own farm
- Norway:
  - 10 electrician students at school

# Visits from abroad

- Anything from Nepalese ministers to a Finnish think-tank on an inspirational tour
  - Tunisia
  - Mongolia
  - Singapore
  - Bangladesh
  - Finland
  - France
  - The Netherlands
  - USA

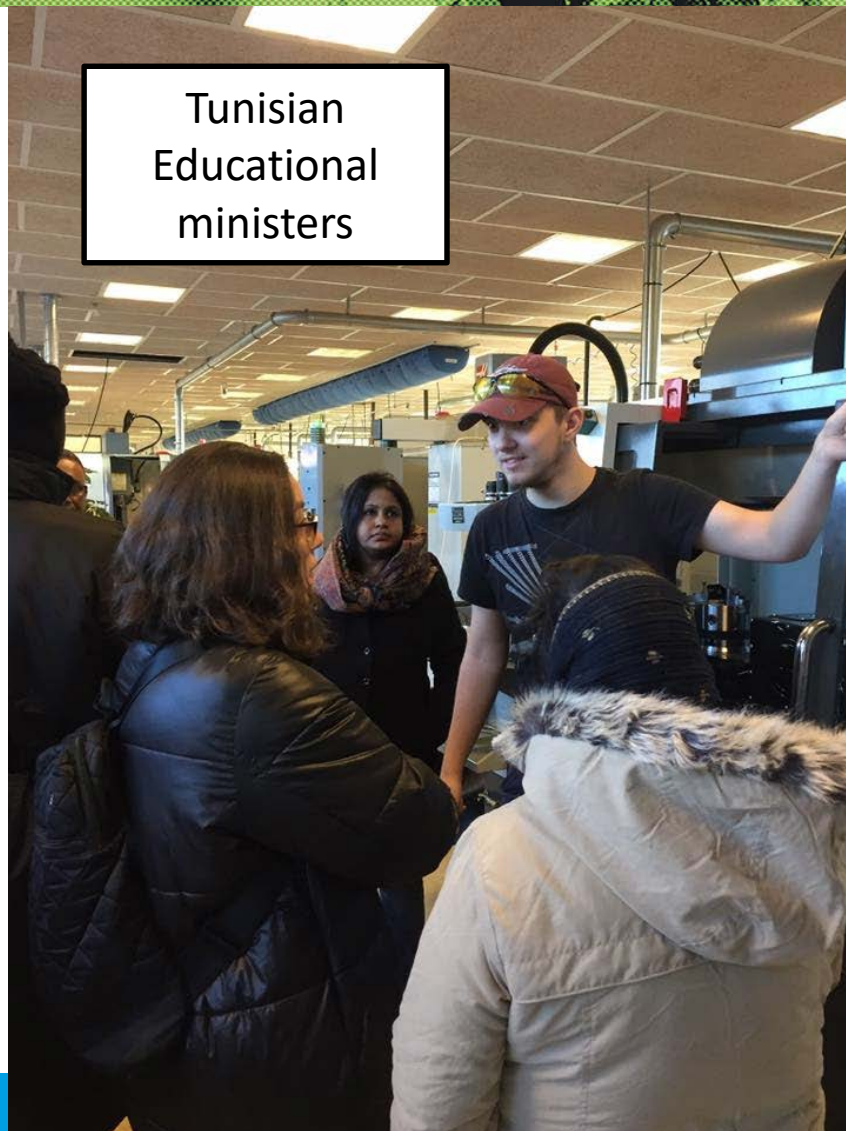

# My work.....

- Visits ....

Finnish "Think-Tank"

Tunisian  
Educational  
ministers

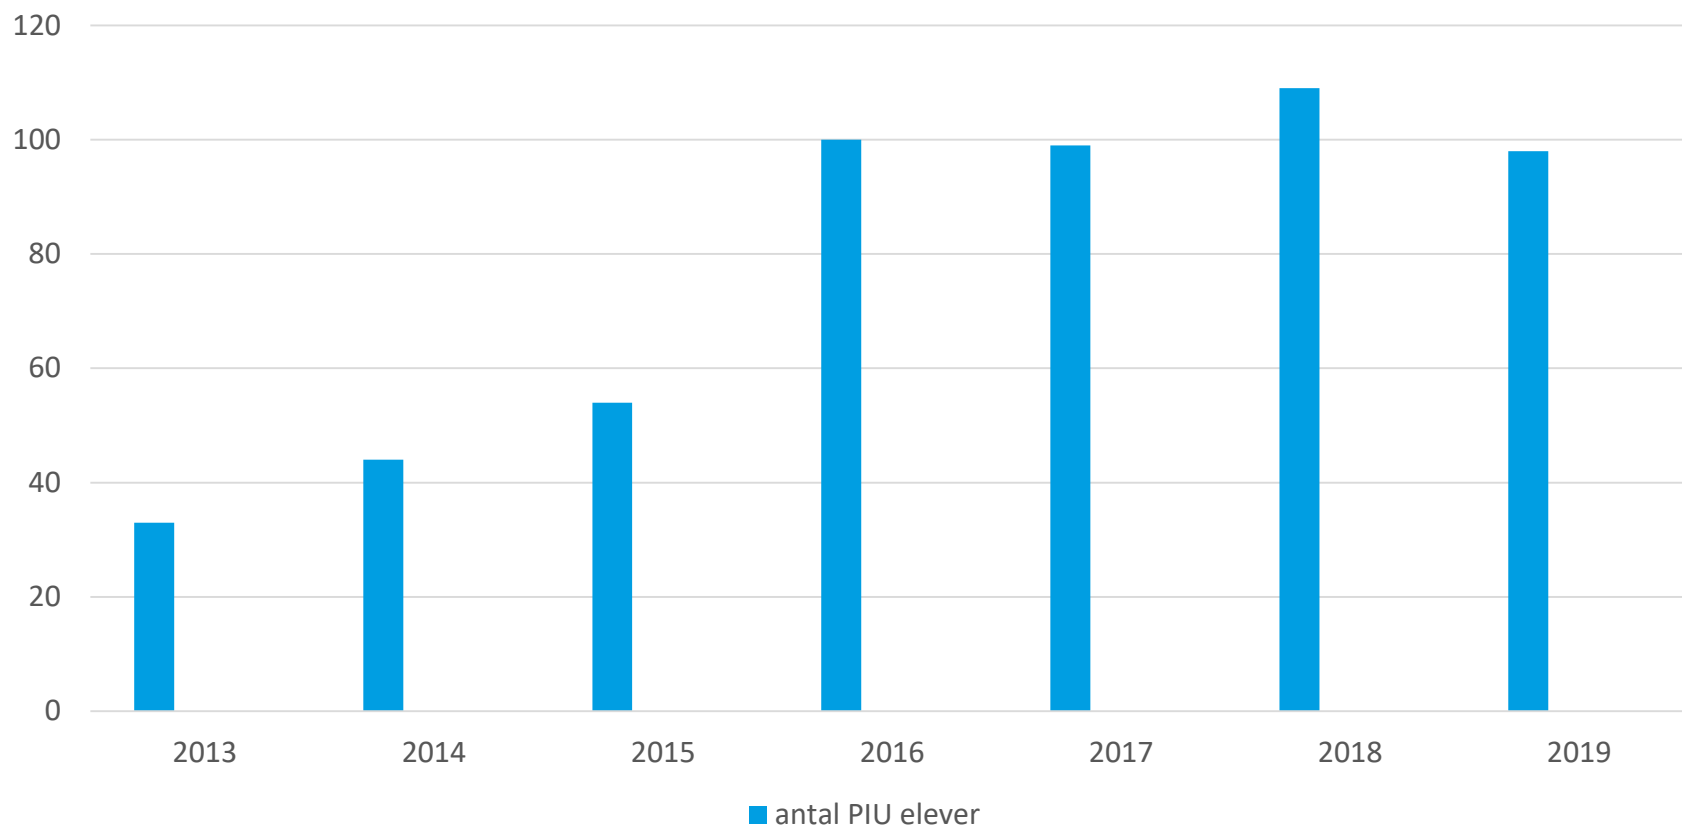

# My work.....

- Students doing Apprenticeships abroad

# PIU – Apprenticeships Abroad

Number of students doing apprenticeships abroad

# Two ways of doing PIU...

## Skoleudsending

- For elever uden dansk mester

## Udstationering

- For elever med dansk mester

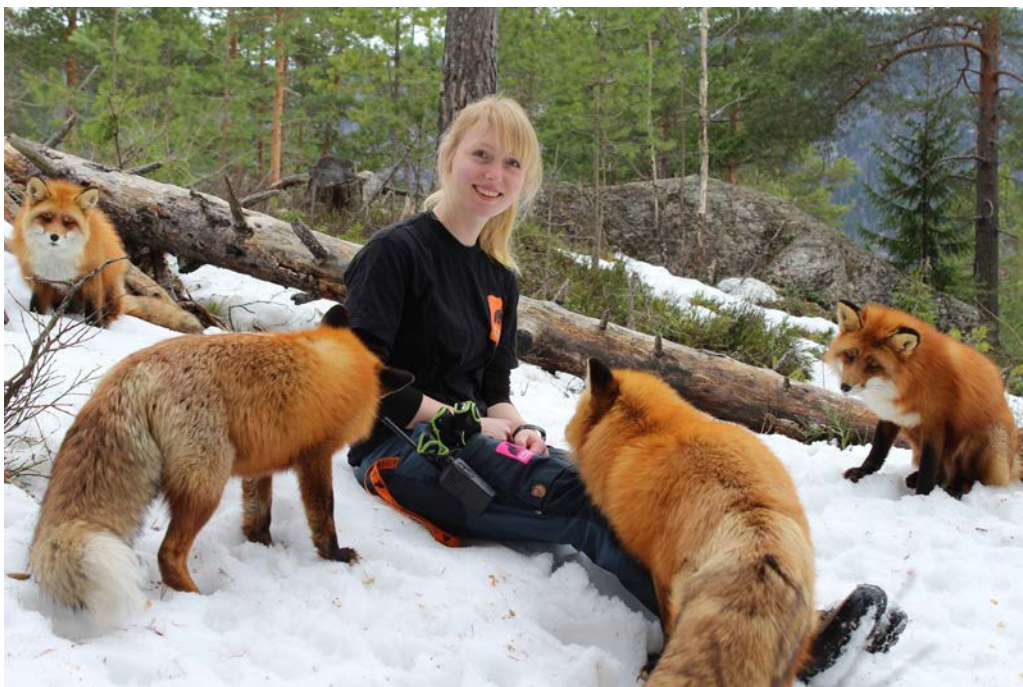

# PIU

- Guide
- Find placements
- Paper work.....
  - Contract
  - Approval
  - Confirmations
  - Final Approvement
- Ensurance, visa, etc...

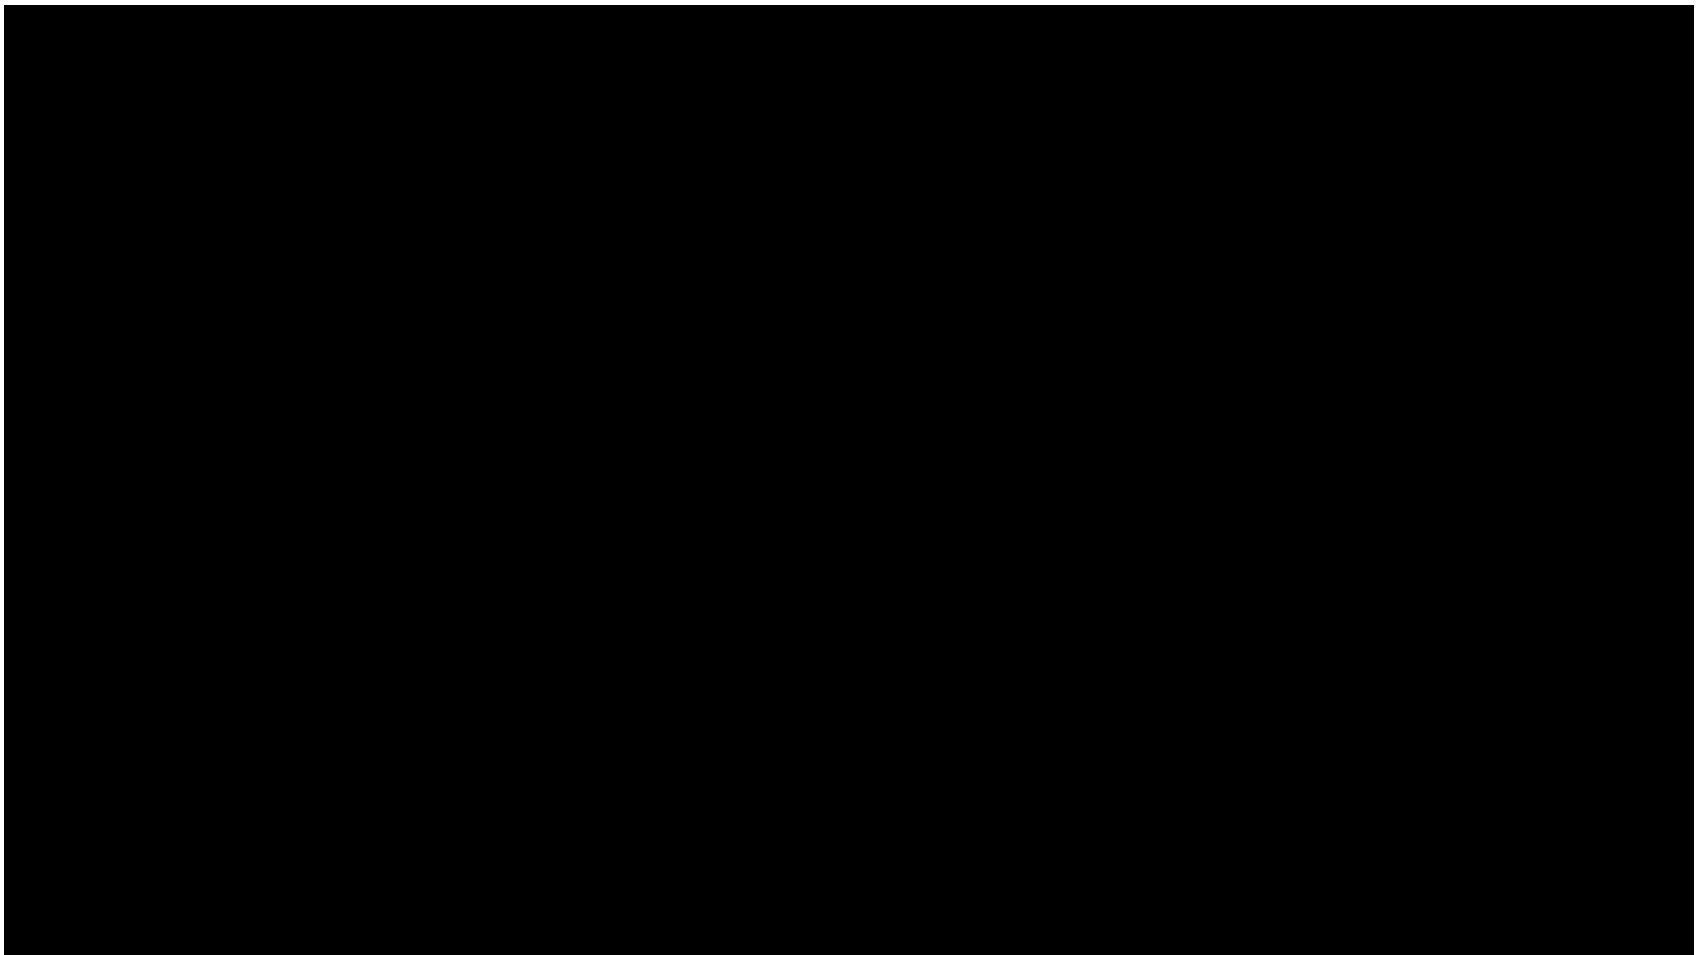

# My work.....

- PIU ....

# Tais i Tyskland

# My work.....

- "Employer" for the PIU Students....

# My work.....

- Transnational projects

# Projects

- NordPlus
  - RTS is "lead" partner
  - Kuben in Oslo, Norway
  - Job-shadowing for teachers
  - Students in- and outbound

# KA2 – Strategical Partnerships

- TaDaT (ES, DK, PL, IT)
  - V18 – Media Graphics
- EDUTRANS (NL, ES, DK, GER)
  - Electricians
- BUILD@HOME (FIN, NL, DK)
  - Gardeners
- EASY ECVET (FR, DK, BEL, FIN)
  - Praktikcenteret

# KA2 – Strategical Partnerships

- New projects in 2021
- RoboCup (ES, NO, FIN, DK) – RTS to be lead
  - Electricians and Industrial Technicians
- Capacity Building in VET (IT, NL, FIN, HU, IS, DK)
  - Managers
- Hydroponics (Small-scale)

# My work.....

- Representing Roskilde Technical VET College in different international networks....

# Networking

- EfVET
  - European Forum for Vocational Education and Training
- PIU Netværk Sjælland
- PIU Netværk Danmark
  - Key note speaker 2019 and 2021
- EUROPEA Danmark/International
  - Former boardmember

But why.....

## DYREPASSER I ENGLAND

### JOB HOS

Chester Zoo

### ANSAT SOM

Headkeeper – Rhino Section

### UDDANNELSESFORLØB

Dyrepasser med Speciale i  
Zoologiske Anlæg fra Roskilde  
Tekniske Skole

Internationalt Grundforløb  
PIU i England gennem hele  
uddannelsen

### YDERLIGERE PRÆSENTATION

Projektkoordinator på  
bevarelsesprojekt med Hvide  
Næsehorn i Afrika

### BARBARA FORTÆLLER...

Det var den vildeste oplevelse! Jeg  
fik flyttet ALLE mine grænser og  
tanker for hvad *jeg* kan!

Det udviklede mig på alle måder, og  
var drømmen der gik i opfyldelse!
